RE: Cane Creek  
Atlas Minerals  
Grand County, Utah  
ACT/019/007

Dear Mr. Dye:

Review of your January 23, 1980 letter and our files show that:

1. The maps indicated are present in our files but these maps do not show all information required by Rule M-3. Those sections not covered are M-3(1)(d) & (g), specifically concerning buildings and topsoil stockpiling area. Both these items are important in determining the reclamation work to be done and the cost of such for the surety. It would be very helpful if the surface facilities could be included on the topographic map.
2. Attachment B - Typical Cross-section Waste Rock Stockpile Regrading, shows a topsoil covering. Where is the topsoil going to come from? No indication is given in the plan and the maps show no topsoil stockpile.

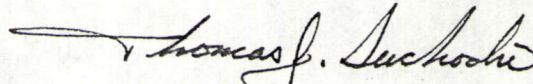

Mr. Richard A. Dye

Page Two

3. A field inspection of the site will be required by the Division staff this coming spring when access to the site is possible and when yourself or a representative of Atlas Minerals is available. Please let me know then this would be acceptable to you.

If you have any questions, please do not hesitate to call.

Sincerely,

A handwritten signature in dark ink, appearing to read "Thomas J. Suchoski". The signature is fluid and cursive, with a long horizontal stroke extending to the left.

THOMAS J. SUCHOSKI  
RECLAMATION HYDROLOGIST
